

Optimize Space. Enhance Wellbeing.

The need for height-adjustable panel-based workstation in organizations is increasing as they aim to find a balance between space efficiency and the well-being of their employees. HA PANEL is specially designed to meet the requirements of workers in any health-conscious workplace, regardless of space limitations, layout, or size.

Inspiring Spaces.

HA PANEL revolutionizes traditional height adjustable workstation by concealing the lifting columns within the panel frame, creating a clean and organized bottom space. This design maximizes workspace usage, ultimately contributing to employee well-being.

Power.

One of HA PANEL's great strengths is built-in power. The power management system, scientifically designed for enhanced safety and convenience, sets it apart from other products.

Sitting. Standing.

HA PANEL's intuitive touch controllers allow users to effortlessly adjust the work surface to their preferred height, accommodating a variety of postures.

Mobility.

Comes equipped with casters that allow for easy movement. HA PANEL moves with you and your work. It's mobile, yet stable.

Make Your Own.

Compatible with the majority of panel systems available in the market, allows for flexible creation of various styles and configurations, making it distinctly yours.
