ORBITFLEX SERIES

Adjustable Height | Come With Casters | Quick Adjustment

OM-06-GS

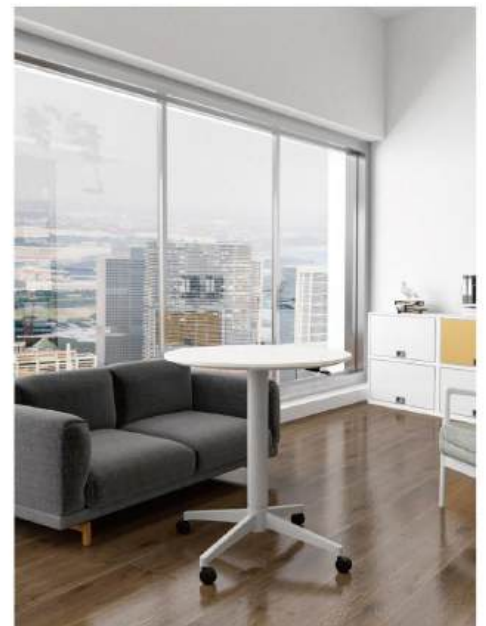

The OrbitFlex Series offers two versatile gas-lift tables suitable for offices, laboratories, collaborative workspace, and even home use. Both variants enable effortless height adjustment for healthier sit-to-stand transitions, while the tilting variant adds a pivoting tabletop for greater flexibility in presentations, reading, or creative tasks.

Home Office

Leisure Office

Commercial Office

Features

- Effortless gas-lift height adjustment for quick sit-to-stand transitions.
- Experience stable, fluid motion when raising or lowering the tabletop.
- Functions purely on gas-lift technology without external power sources.
- A user-friendly handle under the tabletop allows simple height adjustments.
- Built with high-quality materials for a sturdy, long-lasting use.
- Ideal for professional, educational, collaborative, or home environments.
- Choose between lockable casters for mobility or glides for a stationary setup.
- The tilting Variant features a pivoting tabletop for presentations, reading, or creative tasks.
